

## Evaluation Scoring Information

The scores were derived from two different criteria, **Skills evaluations** and **Game-play** evaluations. Each evaluation had a separate scoring system that was added together for a total combined score.

### SKILLS EVALUATIONS

**Skills scoring** was based on performing specific skills that would equal a total score of 60.

Passing: 10 left, 10 right =20

Catching: 10 left, 10 right =20

Shooting: 5 left, 5 right =10

Ground balls: 5 toward, 5 away = 10

### GAME PLAY EVALUATIONS

**Game-play scoring** was based on several criteria that was observed during the scrimmages.

The evaluators recorded the pinnie numbers with a + or - of players they noticed during game based on: Catching, Cradling, Field sense, Athleticism, Ground balls, Individual defense, Passing and Shooting.

The number of times the players jersey number appeared on the sheet was then totalled and combined with the skills score for a total score.

**There were over four thousand numbers on game play evaluation sheets!**

For Example:

Ability to pass accurately		23-		
Cradling	10+	20+	21-
